Talia in Earth-Chocolate Leather

Elegant Design...Innovative Engineering...Ultimate Enjoyment

Since its founding in 1992, Salamander Designs has been a leader in the consumer electronics marketplace, offering advanced flexible solutions for audio and video enthusiasts. Today, our original selection of creative and beautifully constructed home entertainment furniture and component mounts has expanded, and is complemented with a collection of luxurious theater and media room seating and accessories.

The Salamander Seating collection reflects a love of modern design, with simple, refined lines and functional forms. Attractive, soundly built foundation elements and accessories fit together in a myriad of ways—and reconfigure to meet changing needs. It portrays a look that is timeless, quality that is uncompromising, and an energy that meets the challenges of our fast-moving electronic age. Whether your entertainment space is contemporary or traditional, small or spacious, must meet simple or complex esthetic and technical demands, Salamander's advanced, flexible solutions more than measure up. With Salamander Designs, the possibilities are endless.

Enjoy Superior Viewing and Listening... in Ultimate Comfort

We have developed an exclusive collection of attractive seating designs, all constructed to provide flexible body support, exceptional comfort and maximum enjoyment during the longest double feature.

All three of our signature seating designs—ALEX, MATTEO and TALIA—provide strategic head, lumbar, leg and foot support, alleviating lower body and leg aches, neck strain and eye strain, in either upright or recline positions. Just sit down, get comfortable, look, listen...and enjoy.

Sleek and contemporary, Matteo provides the comfort of a large, embracing chair on a relatively small footprint—a great benefit in applications where a larger number of seats need to be positioned in limited space. With manual or powered reclining mechanism, it easily moves with you. Adjust the headrest for just-right support.

MATTEO

Earth-Charcoal Leather

For lavish comfort on a grand scale, Talia exceeds expectations. With curvaceous, body-hugging style, this versatile wall-away recliner is available with manual recline or a powered mechanism for endless positioning possibilities. The ultimate in enveloping comfort, the Talia gives your room the look of luxury.

TALIA

Classic club chair styling and a stress-free, wall-away inclining mechanism make Alex an elegant solution not just for theater rooms, but also sound rooms, media rooms, and many other environments. This is a favorite with audiophiles, who appreciate the unobstructed sound enjoyment the lower seat back permits.

ALEX

Vintage-Hazelnut Leather

What makes a great chair?

With Salamander Seating, there's so much more than meets the eye. Our seating is constructed with the highest quality materials, using innovative-yet-proven construction techniques. It's not just about style...it's about comfort, durability, reliability and value.

Talia Lovesest, Earth-Eclipse Leather

Top-Grain Leather and Durable Microsuede...for Lasting Luxury

We believe that the finishing touch to the perfect chair is exceptional upholstery material. That's why our selections include three distinctive choices in quality leathers as well as a durable fabric. All are offered in a spectrum of appealing colors.

Depend on the Mechanisms

Only American-made, commercial-grade mechanisms are used in all our seating. Higher gauge steel assures users of exceptional durability and reliability. Our powered chairs have quiet motorized controls, and infinitely variable stops for just the right position.

Consider the Framing

Salamander Seating frames are constructed of top-grade, plywood that flexes and recovers without cracking. Joints are crafted with mortise-and-tenon construction for greater strength and durability. No shortcuts...no compromises. Just strength and durability you can count on.

Relax...it's Built to Last

We use a strong base of elastic sheet webbing on seat bottom and back, topped with the highest quality resilient virgin polyurethane foam, cut to shape, then wrapped with a layer of polyester padding before covering. This type of construction prevents cushions from packing down and losing their shape over time, so you know you can count on many years of durability, comfort and good looks.

Design the Perfect Seating Solution

Suit your space, your taste and your needs with Salamander's modular seating system and accessories in just a few steps.

① Configure loveseats, straight or curved rows of seating by combining **Chair Modules**.

② Opt for a quiet powered or manual **Mechanism** and recline in ultimate comfort.

③ Choose to have recessed **Cup Holder**, available in black or silver anodized aluminum or none.

④ Select from a wide selection of premium and eco-friendly **Leathers** and durable **Microsuedes**.

⑤ Add **Accessories** to enhance the comfort and enjoyment of your theater experience;

- Clark Tactile Sound Transducers that produce a full range of frequency vibrations, allowing you to experience the natural percussive impact of movie sounds.
- Swivel Tablets that simply install into any cup holders to serve as a handy surface.
- Matching Lumbar Pillows for additional support, available in any leather or microsuede.

Tello Theater in Earth-Chocolate Leather

TALIA

Generous cushioning and graceful Italian Moderne-inspired curves invite you to be seated, and allow the reclining back and hidden footrest to support you in lavish comfort. The wall-away recliner configuration expands your room arrangement options. Select a manual or powered reclining option. Link chairs in pairs for loveseats or in rows to create your home theater.

VERSATILE DESIGN...AHEAD OF THE CURVE

MATTEO

This spirited, contemporary rendition of the traditional movie-house chair provides embracing support on a relatively small footprint. It has gently curved, cushioned arms, and an adjustable headrest for maximum comfort. Hidden foot rest automatically extends. Select manual push-on-arm or powered reclining mechanism. Stand one alone or arrange in straight or curved theater-style rows.

NOT JUST SEATING...A SENSORY EXPERIENCE

ALEX

Inspired by the classic art club chair, the Alex's swooping arm rests and low-slung profile give it sensuous style with timeless appeal. Its wall-away tilting incline and hidden footrest enhance the practicality of this chair. Like all Salamander Seating, these chairs can stand alone, be coupled as a loveseat, or be joined in curved or straight theater rows.

SENSUOUS STYLE...SENSIBLY PRACTICAL

Ottomans and Tables...

Styled with a Secret

Complete your home theater or media room with these double-duty components, to add function, flexibility and storage. Create ample storage space for DVDs, remotes, blankets and more with a Storage Ottoman with a comfortably upholstered top, or a Cache End Table with a solid walnut wood top. Both have hinged tops, and are upholstered to match your chairs.

Storage Ottoman in Earth-Eclipse Leather

Unfold the JumpSeat Ottoman

Need additional seating from time to time? Our unique Jump Seat Convertible Ottoman unfolds to reveal a hide-away theater seat. A sturdy, patented mechanism smoothly positions the top in an upright position, revealing a padded seat and backrest.

Premium Leather

VINTAGE

The fresh, full-grain, aniline-dyed steer hides chosen for our VINTAGE leather provide an excellent soft hand and drape. Waxes and oils applied during finishing create an age-distressed look. Scratches and marks rub out over time, leaving a rich luster and feel. A protective clear coat is added for durability. The natural markings and color variants of VINTAGE leather give it an authentically rustic look and make each upholstered chair unique.

Premium Leather

LUSTRA

Full hides of supple, top-grain steer leather are carefully selected and aniline dyed to create LUSTRA leather for Salamander Designs' theater seating. Hand rubbed and hand stained with subtle oils and waxes, the leather is given a clear, protective topcoat, and then hot ironed. This quality and fine workmanship give LUSTRA leathers a soft hand—and a character reminiscent of Old English bridle—simply classic.

Eco-Friendly Leather EARTH

Salamander's environmentally friendly EARTH leathers begin with an ultra-supple, top-grain cowhide, which is aniline dyed in our tannery, using an eco-friendly process with no chromium or other heavy metals. The natural-grain leather receives a clear protective finish for excellent durability, deep color, and an incredibly soft touch. EARTH leathers are easy to clean—an ideal choice for families with children or pets. Available in a range of fresh, new color choices.

MICROSUEDE

The popularity of MICROSUEDE upholstery fabric is growing as its many benefits and exceptional value are proven in good looks and performance. Salamander Seating offers a generous array of colors in this cutting-edge, 100% Micro denier fabric. With a soft feel and smooth nap, it stands up to natural suede in great looks and comfort. Add excellent durability and easy cleaning, and MICROSUEDE is clearly an ideal choice for today's busy lifestyles.
